

Description

The CB19 Snap-On Circuit Breaker Lockout is a compact, durable nylon device designed to securely lock off 120 V circuit breakers with a holed switch tongue. It snaps into place without tools and accepts a safety padlock, preventing accidental re-energisation during maintenance and ensuring clear, reliable lockout protection.

Key Features and Benefits

- Quick and easy usage, just snap it into place and apply padlock.
- Accepts lock shackles up to 10mm in diameter.

Application

- For 120 V circuit breakers which have holes in the switch tongue.

Dimensions

- Total Length: 54.5mm
- Body Width: 8.5mm
- Body Height: 22mm
- Jaw Size: 9.5mm
- Lock Holes: 7.5mm
- Weight: 0.0197kg

Materials

- Engineering plastic strengthened nylon PP

PRODUCT CODE: CB19
